BATTERY CHARGER

Rig Control Products Ltd

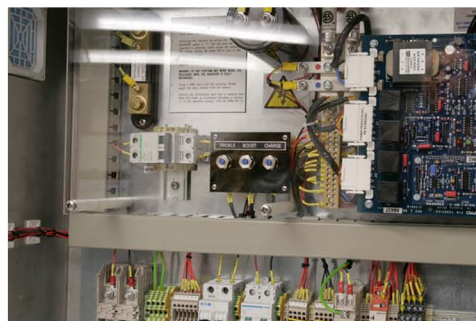

BATTERY CHARGER

RCP supply a range of Power Equipment including charging systems, UPS and clean instrument battery power. Ex and safe area options are available.

Optional features include a boost function, allowing for rapid charging of batteries.

These low cost systems have a rapid build time and in many instances, have been delivered within a tight time scale. They are an ideal replacement for customers who cannot source spares, or maintenance to support their existing systems.

- Clean Power Supply for Instrumentation
- Battery Charger with Boost function
